PERSONAL PROFILE

Data Engineer with 5 years building scalable data platforms across BFSI, Life Sciences, and Retail. Specialises in PySpark pipeline optimisation, Medallion Architecture, and legacy migration including a project that cut pipeline runtime by 73% at American Express.

WORK EXPERIENCE

Ernst & Young, Senior Tech Consultant

11/2024 – Present | Gurgaon, India

- Reduced pipeline runtime **73% (40 hrs to 10.5 hrs)** by migrating MapReduce to PySpark, enabling same-day data availability and eliminating reporting delays.
- Automated ML workflows and job execution, eliminating **~7 hrs/week** manual effort and reducing dependency on manual operations in non-orchestrated environments.
- Partnered with Infrastructure teams to optimize resource-intensive workloads, improving cost efficiency across shared compute clusters.
- Established production-grade logging and error-handling standards, significantly reducing failure triage time and improving production reliability.

Cognizant Technology Solutions, Associate - Projects

09/2023 – 08/2024 | Gurgaon, India

- Built Medallion-based MDM pipelines, standardizing data layers and improving reliability of downstream analytics consumption.
- Improved data quality **10%** by integrating external sources and redesigning schemas, reducing duplicate and inconsistent records.
- Increased pipeline performance **20%** via PySpark optimization and partition tuning, improving SLA adherence.
- Migrated data lake from Parquet to Iceberg, enabling schema evolution and preventing downstream breakages.

Tata Consultancy Services, System Engineer

11/2020 – 09/2023 | Gurgaon, India

- Delivered FSCS data platform for cross-bank compensation across **3 major banks**, designing scalable distributed data pipelines.
- Reduced pipeline runtime **33% (6 hrs to 4 hrs)** through performance tuning of Spark-based workloads.
- Built automated testing framework, improving QA productivity **40%** and ensuring data integrity across pipelines.
- Led a team of 5 engineers and owned production stability, resolving data leakage issues and driving cross-functional alignment.

EDUCATION

Indian Institute of Technology Patna M.Tech , Cloud Computing	08/2025 – Present Bihar, India
Dr. A.P.J. Abdul Kalam Technical University B.Tech , Computer Science and Engineering	08/2016 – 09/2020 UP, India

SKILLS

Cloud & Big Data: AWS (S3, EC2), Databricks, Apache Spark, PySpark, Hadoop
Data Storage & Modeling: PostgreSQL, Hive, Impala, Iceberg, Dimensional Modeling
Programming & Scripting: Python, SQL, Scala, Bash
Orchestration & DevOps: Airflow, Jenkins, CI/CD

ACHIEVEMENTS

High-Flyer Award , <i>Ernst & Young</i>	2025
SSB Conference Selection (3×) , <i>Service Selection Board</i>	2024
GCP - ACE Cerification , <i>Google Cloud</i>	2024
Xcelerate Warrior Award , <i>TCS</i>	2022
OnSpot Award (2x) , <i>TCS</i>	2021
Best project of year 2020 , <i>IPEC</i>	2020
B Certificate , <i>NCC</i>	2015
